

VARI*LITE

HOUSE OF WORSHIP MEDIUM SANCTUARY

Application Guide

Medium House of Worship

- Dedicated service spaces
- 750 - 1500 Seats
- Full-sized stage with multiple areas
- Video projection, cameras, and satellite locations
- Concerts, holiday services, and special events
- Volunteer and professional operators

Challenge

Solution

Midsized houses of worship have lighting needs that range as widely as the needs of their parishioners, and typically require some combination of architectural, event, and full production-style lighting.

With the broadest range of luminaires and controls in entertainment lighting, Vari-Lite has the perfect solution for your worship space.

Lighting solutions in these spaces must offer the flexibility to address everything from weekly services to dramatic productions, concerts, speaking events, and more.

Theatrical and production lighting solutions from Vari-Lite provides medium sanctuaries with flexible solutions that can be easily adjusted for any style of event.

For holiday productions and other events, the lighting solutions in medium sanctuaries must be able to be adjusted or even expanded with rental fixtures and minimal adjustment.

The wide variety of fixed position and moving head luminaires offer powerful capabilities at a variety of positions, while the modular power and IP control solutions offer power and data where you need it.

And because lighting systems are often controlled by volunteers, architectural lighting and show control must be capable and intuitive.

Volunteers can easily control the lighting with intuitive consoles like the FLX or the NEO C10, while the touch-based Vision.Net architectural control allows anyone—even the worship pastor—to set stage and house lighting for services or events with minimal training.

LUMINAIRES

- **VL800 EventProfile (x 6)** - compact LED event profile with professional-grade features.
- **VL800 EventWash (x 6)** - mid-sized full color LED wash with 7 individually controllable LEDs.
- **VL800 EventPar, RGBA (x 6)** - retro-style LED par.
- **Leko® LED Profile, TWW (x 18)** - professional profile with high CRI and tunable cold or warm white source options.
- **Aurora LED Strip 12 (x 8)** - high output professional theatrical strip fixture with rich color mixing.

CONNECTIVITY (120V)

Neo C10 Console (x 1) - powerful, compact lighting console with command line programming.

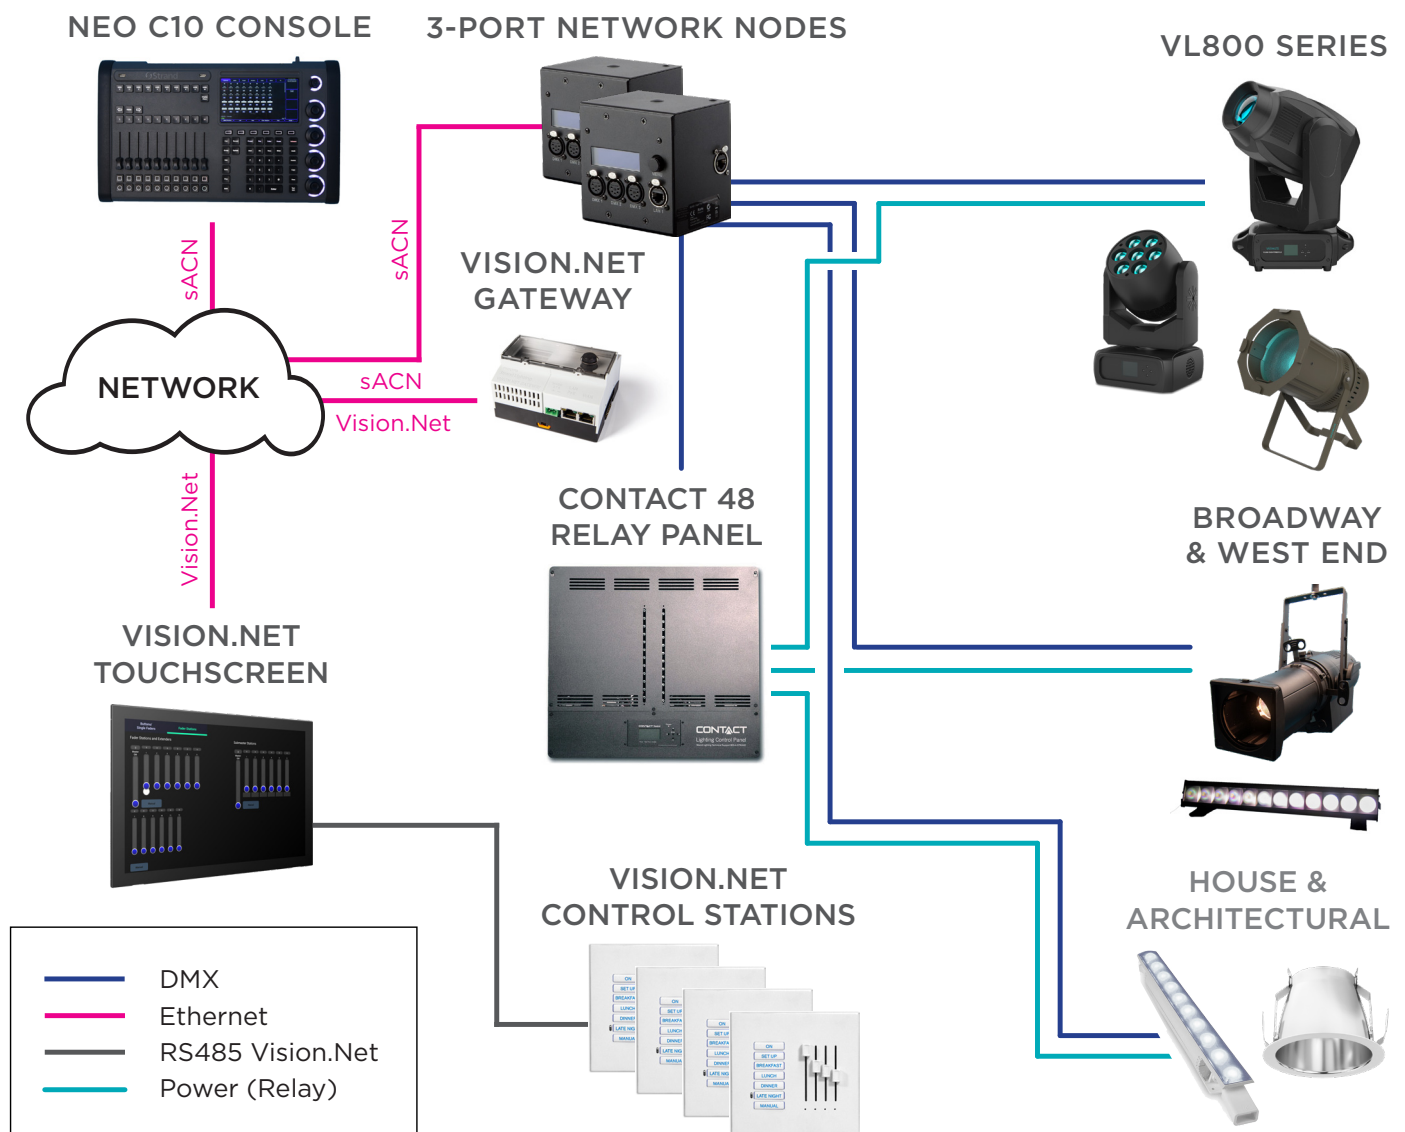

Vision.Net 10.1" Touchscreen (x 1) - touch-based panel to control a lighting system.

Vision.Net Control Station (x 4) - simple interface for controlling lights during simple events.

Vision.Net Gateway (x 1) - DIN-rail mountable gateway for architectural control of house and stage lights.

Networking Node 3 (x 2) - configurable 3-port node for DMX-over-IP and Vision.Net bridging.

Contact 48 Relay Panel (x 1) - modular panel providing relay-controlled 120V power to fixtures.

CONNECTIVITY (230V)

FLX Console (x 1) - intuitive lighting console with familiar, industry-standard syntax.

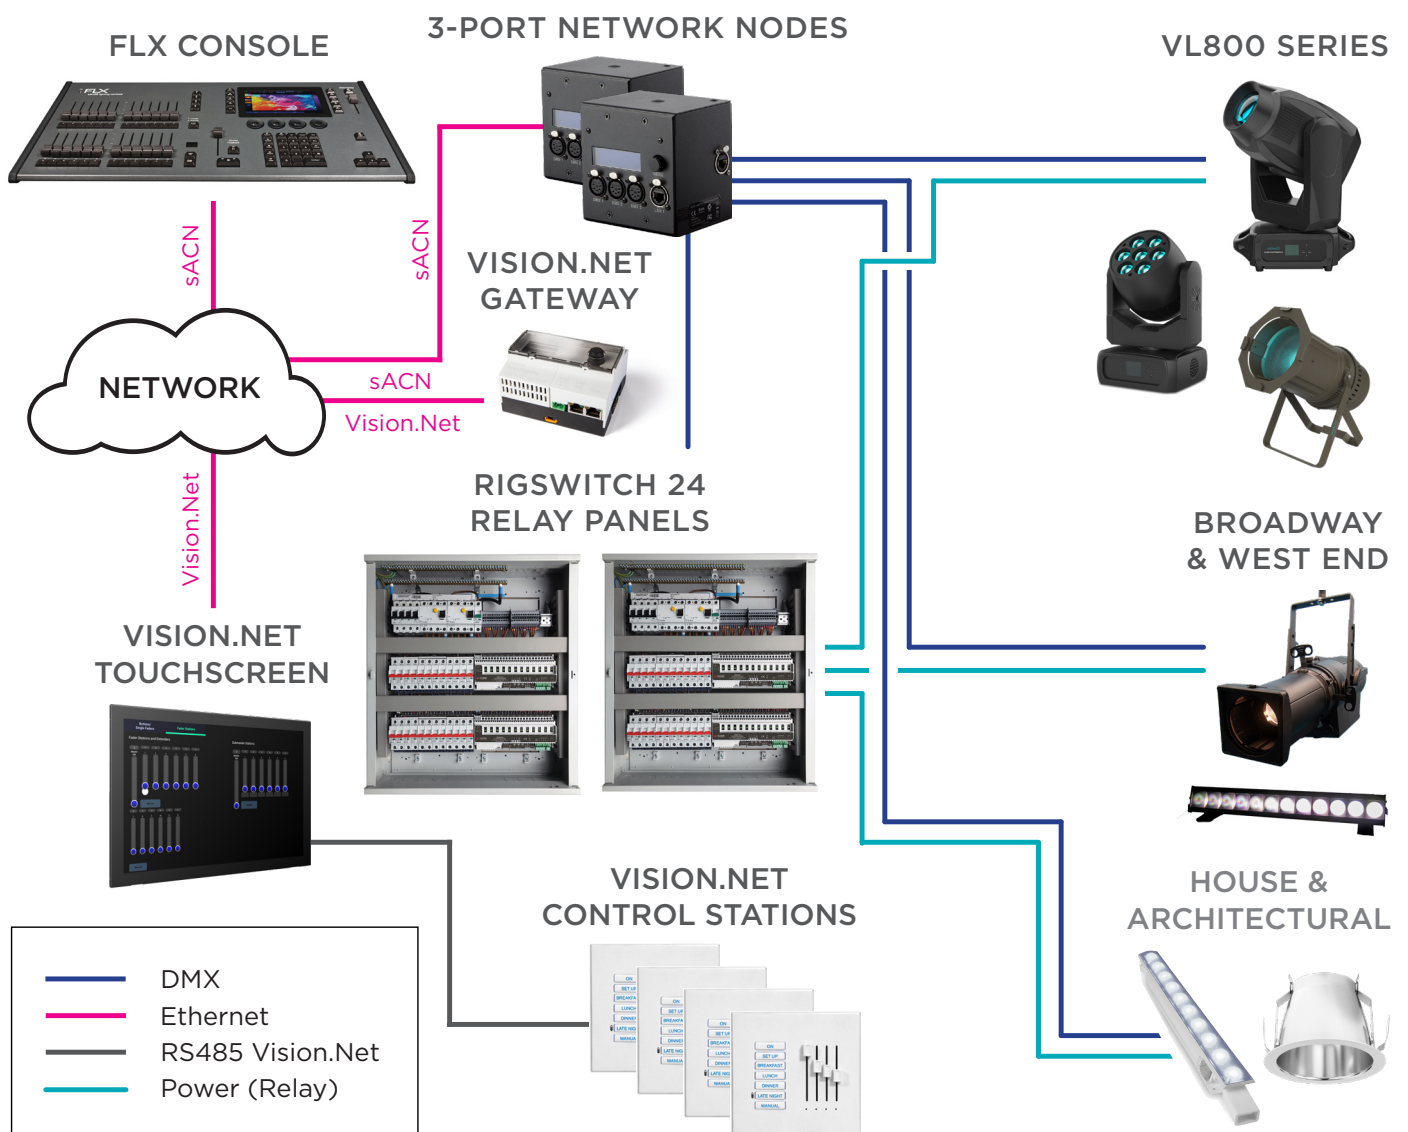

Vision.Net 10.1" Touchscreen (x 1) - touch-based panel to control a lighting system.

Vision.Net Control Station (x 4) - simple interface for controlling lights during simple events.

Vision.Net Gateway (x 1) - DIN-rail mountable gateway for architectural control of house and stage lights.

Networking Node 3 (x 2) - configurable 3-port node for DMX-over-IP and Vision.Net bridging.

RigSwitch 24 Relay Panel (x 2) - modular panel providing relay-controlled 230V power to fixtures.
